

--পরীক্ষা অংশগ্রহণ করা এবং উত্তর পত্র জমাদানের জন্য দিক নির্দেশনা--

- প্রশ্নপত্রের পিডিএফ দেখে খাতায় পরীক্ষা দিন।
- খাতায় প্রশ্নের নাম্বার এবং পেজ নাম্বার অবশ্যই লিখবেন।
- প্রশ্নপত্র আপলোডের জন্য এ্যাপ হতে সরাসরি পেজের ছবি তুলে আপলোড করতে পারবেন অথবা এ্যাপ মিনিমাইজ করে ক্যামেরা দিয়ে ছবি তুলে (স্ক্যান করে) আপলোড করতে পারবেন। ছবি অবশ্যই স্পষ্ট হতে হবে।।
- গ্যালারি হতে আপলোডের ক্ষেত্রে একটি প্রশ্নের উত্তর একের অধিক পেজ হলে উক্ত প্রশ্নের সকল পেজ এক সাথে সিলেক্ট করে আপলোড করবেন। আলাদা আলাদা করে আপলোড করবেন না কারন তাতে একপেজ আপলোড হবে

SO(21) Written Batch Final Test
Organized by: Latifur's Focus Writing

Time: 2 hours

Full marks: 200

1. Section-A: Focus Writing in English (Qs.a-b)

Marks=35

a) Write an Essay on “**Global Supply Chain Dynamics of Bangladesh’s RMG Sector**” within 250 +/-10% words. 25

b) Write your perception on “**Innovations in Agriculture for Rural Development**” 10

2. Section-B: Focus Writing in Bangla (Qs. a-b)

Marks=35

a) “নগদ বিহীন লেনদেনের দিকে বাংলাদেশের যাত্রা” বিষয়ক একটি রচনা লিখুন (২৫০ +/- ১০% শব্দের মধ্যে) 25

b) নিম্নোক্ত উক্তিটির ভাব সম্প্রসারণ করুন: 10

“পথের প্রান্তে মোর তীর্থ নয় পথের দুই ধারে আছে আমার দেবালয়”

3. Section-C: General Knowledge (Qs.a-o)

Marks 15*2=30

a) Where was the Egmont Group founded and how many members does it have?

b) How many ministries were there in the Mujibnagar Government?

c) What is ‘Black Monday’?

d) What is the title of Rabindranath Tagore's collection of short stories?

e) Which city is known as ‘Craft city of Jamdani’?

f) Which is the largest Marine protected area of Bangladesh and what is the area of that?

- g) What is the length of "Dhaka elevated Expressway" and "Bangabandhu Sheikh Mujibur Rahman Tunnel"?
- h) Who has won the US open tennis (Men)-2023?
- i) According to Economic Review 2023, What is the ratio of Men and Women in Bangladesh?
- j) What are the central banks of Nepal and Bhutan?
- k) Who is the first Bangladeshi woman batter to score hundred in the international cricket?
- l) Which is the first fistula Hospital in Bangladesh?
- m) Write down the full forms of BEPZA & DCCI
- n) Which is the first play written by a Muslim Writer in Bengali Literature?
- o) Which is the longest Strait in the World?

4. Section-D: Read the comprehension and answer the questions: (Qs.a-f)

Marks=30

There is no shortage of water around the coastal areas of the country, but due to increasing salinity and a lack of fresh water, the health of millions of people in the region is at risk. People of all ages, including women, children and the elderly, suffer from various diseases, including stomach ailments and allergies. The human body needs a certain amount of salt, which comes from food and water, but the salt content of the water in coastal areas is many times higher. If this water enters the body, health risks go up. It becomes more dangerous for pregnant women. Women who drink too much salt water during pregnancy can experience high blood pressure and even seizures. Because of this, women have the possibility of suffering miscarriages. In addition, high salt intake is associated with high blood pressure, which increases the risk of heart disease. Two natural factors are mainly responsible for increasing salinity in coastal areas: first, salty water flooding the land during high tides; and second, underground saline water percolation to the surface through capillary pores during the dry season. If this water is used for irrigation, the soil or land becomes more saline. Apart from this, salinity also increases due to man-made causes. Local influential people cut dams and pump salt water into the surrounding area for shrimp farming. Comprehensive programs and long-term planning should be started immediately to ensure that poor people in coastal areas, especially those prone to river erosion, salinity, and cyclones, have access to clean water. Solutions should be found to stop salinity intrusion into coastal areas. In order to achieve this objective, the researchers should be provided with adequate facilities and take quick steps. Apart from sponsoring the spread of climate-tolerant technology, we must work to increase the capacity of institutions related to this sector. In addition to taking measures to ensure that the water is not contaminated, every effort should be made

to make the water free from arsenic. Attention should be paid to reducing underground water extraction and maximizing surface water use for domestic and other purposes.

Questions:

- a) What are the main health risks faced by people in coastal areas, according to the passage?
- b) Why is drinking saltwater particularly dangerous for pregnant women?
- c) What are the two natural factors responsible for increasing salinity in coastal areas?
- d) What man-made factors contribute to the increase in salinity in coastal areas?
- e) What is suggested as a solution to address the issue of salinity intrusion in coastal areas?
- f) Apart from addressing salinity, what other water-related concern is mentioned in the passage?

5. Section-E: Mathematics (Qs. a-e)

Marks 5*6=30

- a) Solve the equation, $\frac{4}{2x+1} + \frac{9}{3x+2} = \frac{25}{5x+4}$
- b) A sum of Tk. 2000 was invested in two parts one at 5% interest rate and another one at 10% interest rate. If the total annual interest earned was Tk. 160, then how much money was invested at 10% interest rate?
- c) A does half as much work as B in three-fourth of the time. If together they take 18 days to complete the work, how much time shall B take to do it?
- d) A basketball team has won 15 games and lost 9. If these games represent 16.67% of the games to be played, then how many more games must the team win to average 75% for the season?
- e) The perimeter of an equilateral triangle is $72\sqrt{3}$ meters. Find its height.

6. Section-F: Translate English to Bangla (Qs. a-e)

Marks 5*2=10

- a) Bangladesh's blue economy holds immense potential for sustainable development, leveraging its vast maritime resources and coastal ecosystems.
- b) The country is among the top producers of fish globally and the world's fifth-largest aquaculture producer.
- c) The country is exploring opportunities in maritime trade and transportation, establishing deeper sea ports.
- d) By capitalizing on its unique geographical location, the nation aims to tap into these green energy sources, contributing to its ambitious climate change mitigation goals.
- e) This includes the construction of a floating solar power plant and initiatives to promote energy efficiency and conservation.

7. Section-G: Argumental Writing in English

Marks =30

In some cultures the old age is more valued, while in some cultures the youth is more valued. Discuss both views and give your own opinion.
